## APPROVAL MATRIX

### **Quality Management Systems Approval:**

AS 9100D (technically equivalent to EN 9100:2018 and JISQ 9100:2016)

### **Scope of AS/EN9100 Approval**

- The manufacture of aviation, space and defence products in metallics and composites for structures and components to customer specific design requirements including: precision machining, sheet metal fabrication, rubber press, stretch forming, chemical milling, chemical protective treatments, fusion and resistance welding, heat treatment, non-destructive testing in fluorescent penetrant flaw detection, mechanical testing, pre preg composite layup, composite wet layup, composite resin infusion, bonding of both composite and metallic structures.

### **Scope of ISO9001:2015 Approval**

- The manufacture of aviation, space and defence products in metallics and composites for structures and components to customer specific design requirements including: precision machining, sheet metal fabrication, rubber press, stretch forming, chemical milling, chemical protective treatments, fusion and resistance welding, heat treatment, non-destructive testing in fluorescent penetrant flaw detection, mechanical testing, pre preg composite layup, composite wet layup, composite resin infusion, bonding of both composite and metallic structures, military repair capability.

### **Environmental Management Systems Approval:**

ISO 14001:2015

### **Scope of Approval:**

- The manufacture and repair of products in metallic and composites for structures and components in aviation, defence, marine and other applications to customer specific design requirements including: precision machining, sheet metal fabrication, rubber press, stretch forming, chemical milling, chemical protective treatments, fusion and resistance welding, heat treatment, non-destructive testing in fluorescent penetrant flaw detection, mechanical testing, pre preg composite layup, composite wet layup, composite resin infusion, bonding of both composite and metallic structures.

### **Health and Safety**

- Health and Safety Management System based on BS ISO 45001

### **Beagle Aerospace Integrated Management System (IMS) Documentation**

- IMS Manual BA/IMS/T1
- Operations Procedures (BOP's) BA/IMS/T2.
- Quality Procedures (QP's) BA/IMS/T3.
- Environmental Work Instructions (EWI's)
- Health and Safety Work Instructions (HSWI's)
